## J.R. "Bob" Dobbs Makes His 2<sup>nd</sup> Million

It all started on a Wednesday morning. Connie came in from spending about half of the first million, and she flops down on the couch - and smiled that hundred grand smile at me.. She said, "Well if you made 1 million from twenty dollars..... what could you do with 500,000, honey sweet-ums?" And I looked at her, to see if she was serious. I had just spent the twenty dollars I earned from making coffee for her that morning, on buying some new shoes. I thought, "Gee, would I love 500,000 dollars." I looked to see if she could read my thought, but she could not - I thought. So I said to her, "I could probably quadruple that money - and you would have TWO MILLION DOLLARS!!!" She said, "Would you like to make a bet?" I said, "Sure thing!" So I go off to the Walmart, and I bought several tractors for about 500,000 dollars - there were so many, I had to hire some laborers on the bank loan I was going to get if this all fell through - to pay them back. We all went down to the local farm, and picked some tomatoes, vegetables, and farmed for others, fifty cents per acres. By the end of the month, we sold the tractors back, and made a profit of about 1 MILLION dollars!!! So when I came back to Connie, she had also made 500,000 selling refreshments to all our workers. The loan fell through, but all the people were so happy for the refreshments, food, and various condiments, they said it was on the house!!! So I won the bet, and she once again, had to take the two million to see if she could come up with various ways to distribute the wealth. What a day, I thought, as I curled up on the couch that night - I was in the dog house - because she wanted it to be three million or more the next time, and I didn't ever know if I lived up to her expectations - especially when she kicked me out of the bedroom. I NEED SLEEP TOO, well, not often, but when I make a lot of money, for my wifey. I feel I deserve a few winks, on those occasions. Until next time!

## 900 LEVEL WEAPONS IMPLEMENTED IN THE REALM ONLINE - HARD TO FIND, RARE, EXPENSIVE - - - AWEEESOME!!!!!!?!!!!!!!!

**WARNING** THEY ARE REAL AND THEY ARE UNIQUELY POSITIONED----  
-IF YOU BELIEVE THIS - THE NUMBERS ARE NOT PERMANENT - SOME NUMBERS MAY CHANGE IN THE RNG (RANDOM NUMBER GENERATOR) - SOME MAY BE FOREVER THE SAME

For now, and for the foreseeable, while you are looking for these weapons, I am going to channel some helpful news, trivia, tips, and tricks.

When you find a dungeon you want to farm, you have to expect it to drop the item for which you are searching. Yet, while you do this, you may have to repeat the same dungeon upwards of one hundred times!!! That takes a week or a month at times - that is why Realm staff give us the general coordinates of the position of the treasure - which dungeon. It may be the first time you go into the dungeon, or it could be the thousandth. This is the challenge and it makes it fun. Do not lose faith!!! Do not lose hope!!! But the greatest of these, is enjoy the time you spend playing The Realm, because we may not have it forever if too many people play it. They will steal all our treasures - so be careful what you wish for!!!

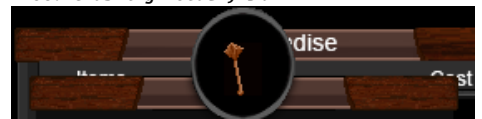

Also, I have learned, if you buy something from other Realmers on the Channel 3 Trade Channel, you will often shortly after be able to pass on the favor --- and reclaim some of your gold ---- by finding it again for free in a chest or a bounty from a monster. This keeps the game interesting. Does The Realm know about it? Is this how it is designed? How smart is this game? We may never know, but myths and rumors abound about how conscious this game has become - it is over thirty years in development after all.

From Stephen Nichols to Gimli, ol' Gimli, the dwarf, they hired at Rat Labs - they feed him in silver food sometimes even!!! He can eat silver!! Well, he made up silver I think. Also, Wolf is an implementor. All these guys, they are legends - they have to make choices that affect all of the population for maybe forever - and it is like Jeff Bezos says:"Make the distinction between decisions that can be undone -- and decisions that cannot be undone."

No 900 weapons are dropped in World Boss bounties - *for now*. All in dungeons: see below.

## G.I. GURDJIEFF - WARTIME MEETINGS 1938

EXCERPT FROM GURDJIEFF'S LAST SERIES OF MEETINGS IN PARIS, FRANCE - EARLY 1900'S

### MEETING TWO (PAGES 7 - 8)

**Questioner:** I am not able to stop associations while I work.

**Gurdjieff:** It is necessary to prepare before the exercise of trying to see with three parts.

**Questioner:** At the beginning when I was working, I felt in myself an emotion. Now I cannot find it any more. I have a constant sensation of dryness. Yesterday this warmer feeling came back, but much weaker.

**Gurdjieff:** It is the sign of a crisis. It is because you have arrived at [the note] mi. You must pass this interval by yourself and find in yourself the necessary strength. Your head, which is as though separated from you, must help you.

**First Questioner:** How?

**Gurdjieff:** It must convince you. It must allow you to see yesterday and tomorrow.

**Questioner:** But my head is weak.

**Gurdjieff:** Yes, but without your head you also would be weak. It is necessary to use it in this way.

**Questioner:** A little while ago I started to read again, but I find in myself that which has always prevented me from working, a sort of avidity which leaves me at the end of a short time tired and having retained nothing. My time has been wasted.

**Gurdjieff:** It is because you only read with your head. Do an exercise. Read only a little—a page at a time. At first you must try to understand with your head, then to feel, then to experience. And then come back and think. Exercise yourself to read with your three centers. In each book there is material for enriching oneself. It doesn't matter what you read and it doesn't matter the quantity, but the quality of the way of reading.

**Questioner:** Following a shock, I have really seen what has been my life—empty, sterile, useless. And I don't want to lose this vision, this feeling. Otherwise, I feel that I will fall again and again lose my life.

**Gurdjieff:** Cosmic phenomena for which you are not responsible go against your work. You can only give yourself your word that when life becomes quiet, you will set yourself to work.

**Questioner:** I feel that my intellectual center is different and that I do not find in myself any affirming force. What can I do?

**Gurdjieff:** There is a little secret there. It is that you are a big egoist. You only know yourself. You have no responsibility. It is because of that you lack this affirmative force. For everything that you have, everything that constitutes you, you are under obligation, and you must repay for all this, so that then other things may be given to you. But instead of this, you are astonished not to have received even more.

## 5/2020 - RAM DASS CONTACTS ME FROM BEYOND THE GRAVE!!!!!!!!!!

This is a whole story, spoken from the heart, to you the reader: it is completely accurate as closely  
as I can express myself to you all!

-----

So, I'm listening to *Cosmix: Kierce and Ram Dass* ... and turns out I get lazy, and I get used to the rhythms and beats.....as it happened, I kept letting it play on repeat in my computer room, when my computer was in there, and it was my office. I was outside, sitting on the little chairs out there, smoking, listening, and just channeling to my psychic influences you know. We had so much fun; one play through of the CD passed - then the album played again, and I was like, "Should I change the album" I thought to myself further, "Nah, I'll listen to it *ONE MORE TIME*" - then a time or two again through the album, and I was like "This is the last time - I'll change it now, actually" --- so I get up to change it, and then I got distracted. All in all, it played for 20+ hours, roughly 25 times - and then all of a sudden I go to finally change it in the early morning twilight - and all of a sudden my computer - in Windows 10 - started displaying random fonts in the File Explorer. I was like, "VIRUS!" or "GOD - IT'S RAM DASS COMING THROUGH" or "MALFUNCTION!!!!" or "BOTS!!!!!!!!!!!! TERMINATORS!!!!!! REPLICATORS!!!!!!!!!!!!" - finally, I rebooted the computer after it seemed to keep messing up. When it rebooted, it was functionally perfect - no problems - Intel CPU at the time - and 32 GB of RAM - running AIMP - (<http://www.aimp.ru> - great MP3 software, etc.) -----finally, I determined it to be a memory leak running repeated albums over and over again. Surely, RAM DASS himself, and this was a few months after he passed in December, 2019 - on December 22, 2019 - he passed away and dropped his body, as they say in India. Maha-raji was probably not too pleased he had yet another follower and chela, and not to take up too much space or time - probably sent him away with a good visa and a credit card - even a green card and many certificates and qualifications from Harvard - to be reincarnated as swiftly as possible - Maha-raji has too many followers in the world - if you try to follow him and he doesn't like you - you will see only an old man in a blanket - even in the after life. If you know who he is, he will tell you exactly what to do!!! "Forget about me, go away, and remember God!"

This was a true story. Really, all that is mostly, very much true!!!
