10% 20% Majority rules. "Never allow another the majority of your vibration - a little often covers it. Never allow a majority of another's vibration into you - a lot often blows it.

All-Rights Access if you've "touched their genitals", "been touched by this or that person", "had sex, even from afar, just once" "love them" HA! INFINITE REGRESS. Such all access rights would be debated across humanity - devastated in time.

Block siddhi - using breain semi automatically

Astrals coming to physicals outside to give them instructions (also direct controlling)

A woman using her morph/reality powers on/in astral and "higher mental part"???

Staring at me. Again. and Again. All the time at times.

Mental prisoners in cages built of thought.

"Controller's Prison"-----not unlike-----"Helper's Prison"

Being blamed and blaming grows tiresome.

A lady friend and I being drawn into poverty wars over food, smoke, and drink. (primarily) *"in order to help her???"*

Wanted me dead to become experts on my dead corpse???

Best thing - mental seeds real or no - I think now not - their astrals have nominalized and could now - actually make their own mental bodies.

New astral detection and removal - saw them for the first time "like flies"

Biphasing was limited to left and right somehow.

"tonight leave it out"

Biphasing brought into heart burn protection and possession prevention

5/10/2020

Possession fine tuned - see for first time faces or flies?

Heartburn absolute hurting almost over - their greatest weapon to keep their hold over snatched parts (etherical grabs) then will stomach to hold stomach acid a little better - a little better - until it holds it all fine - eat more or eat less - whatever - (perhaps it is eating too much X or too little Y - also in diet everyone's different)

Looking at eyes -> allowed them to see through me

Looking at my ears -> enabled hearing through me??

How did they do those at once - could they only choose one at a time?

Socks reveal black smoke.

Many people removed their links to me.

Many also realized greater freedom from those that made them put them there - control spells are breaking.

Some may have been fake or checks - though even resistant ones may have been removed.

They tried to reassert the functions of these removed links - but when I caught the overall motion of one's reassertion - I was able to pull on the opposite.

Caught etherical body part snatching three times - the third time I caught a generalized, larger "catch" - it's like a sliding double lined slash that gets the body parts to separate etherically.

5/14/2020

I keep catching the "four donkeys" trying to give me heart burn - and attempting to make others curse me with them. They appear to hold out their left hands at me, fingers stretched. Found out they had to be lining me up to make it work well - between two of them. Also, found out they may have, over time, moved my intestines tighter into my chest, putting more pressure on to my stomach - doubling/tripling (not sure) my intestines over each other perhaps.

5-8-10 S A T A N - five eats ten

NATASHA STRONGS!!!!!!!!!! Hehehe no way! AGAIN??
YESSSSS!!!!!!!!!!!!!!!!!! Just playing....right?

Someone constantly trying to sex me up from afar by snatching my etherical genitals - this could be the major attention grabber (I have been wondering about)....

Hold throat better. Hold junk better. Hold, also, tummy/navel and anus/rectum better. They mutually support each other.

Swapping pain for ("healing") "health" actively to feel less/no pain.

Actively doing this as a constant necessity to avoid their suffering.

Would it have to be a body part?

How could I stop this from happening to me?

How can we 'kill a plague' on the spot, in ourselves or in others?

We need more Claire Bennetts.

(in the South East - especially Lower Alabama)

O'GIG

Hilly billies for mumbo jumbo

They can put anything into a machine and reverse it. Even paper or pencil could be called machines! This is also known as "GIGO" - "Garbage In - Garbage Out"

Remember pairs aren't always in backwards magics - that each one can only have one true answer - and all of this is just notes that you have been reading. I hope all readers may find some positive, helpful uses to all of this material.
